AIM BY ADSMENTOR

The AIM 12-week syllabus

Nine modules, AI inside every one, and a month at a partner agency.

Weeks 1 to 4: core modules

Module 1. Web development: WordPress, WordPress MCP and vibe coding
You build: your live portfolio website, plus one landing page.

Module 2. SEO and AI search
You build: an SEO audit and a 3-month roadmap for a real brand.

Module 3. Social media, content and automations
You build: a 30-day content calendar and one working DM or WhatsApp automation.

Module 4. Ads on Facebook, Instagram, LinkedIn, Snapchat and X
You build: campaign setups on all 5 platforms with a test plan.

Module 5. Media planning
You build: a full media plan for a brand launch.

Weeks 5 to 8: your four specialisations

- **AI Generalist:** tie every skill together with AI so one person can do the work of a small team.
- **Marktech:** Claude, MCP, automations, tracking and chatbots.
- **Branding and Content:** brand voice, content systems, design and video workflows.
- **Performance and Growth:** paid campaigns, testing plans and reporting.

Month 3: agency internship

- Real client tasks with a partner agency and an internship certificate.
- Portfolio live ads, with the ad spend covered.
- CV rewrite and 3 mock interviews.

What the fee covers

₹5,999, all-inclusive: training, all 4 specialisations, the agency internship, pro tools in month 2 (Claude, Semrush, Google AI Pro, Canva Pro, Ubersuggest, SpyFu), and portfolio ad spend. You pay only after your onboarding call.
