WHY PEOPLE CHOOSE AIM

What you get, not just what you learn

Most courses sell a syllabus. We would rather tell you what changes for you after twelve weeks.

1

Finish with proof, not just a certificate

You leave with a live portfolio on your own domain and an internship certificate from the agency you worked at. When someone asks what you have worked on, you open it and show them.

2

Use the real tools from week 1

You log in and do the work yourself, so the skills stay with you. No watching someone else's screen and imagining the rest.

3

Save lakhs, not just time

Many programs list fees from ₹25,000 to over ₹3 lakh. AIM is one flat ₹5,999 with the internship, tools and ad spend inside it.

4

Learn around your life

Live classes run 9 to 11 pm on weekdays, so you can join while you study or work. Weekends are for doubts, reviews and interview prep.

5

Walk into interviews with a work history

A CV rewrite, at least 3 mock interviews with written feedback and a month of client work give you real answers to "tell me about your work".

6

Be the person who is quick with AI

AI sits inside every module, not one chapter at the end. Companies notice people who finish faster and explore more.

Try it risk-free: 7-day money-back guarantee.

If AIM is not right for you, tell us within 7 days of your first live class and we will refund your program fee. You also pay nothing until your onboarding call.

YOUR 12-WEEK PATH

8 weeks of training. 4 weeks of real work.

You move to the internship only after you finish your module projects, so you arrive ready to work.

1

WEEKS 1 TO 4

Core skills, AI-first

Build a website with WordPress and AI, rank on Google and in AI answers, run social content and automations, set up ads on 5 platforms and plan media for a launch.

You will have: a live portfolio site, an SEO audit, a content calendar, campaign setups and a media plan.

2

WEEKS 5 TO 8

All 4 specialisations, included

AI Generalist, Marktech, Branding and Content, and Performance and Growth. Interview prep runs alongside, and pro tools are included in month 2.

You will have: 4 specialisation projects and an interview-ready CV.

3

WEEKS 9 TO 12

Agency internship

Real client tasks at a partner agency, with a mentor check-in every week.

You will have: an internship certificate from the agency and client work in your portfolio.

A typical week

MON TO FRI

Live classes, 9 to 11 pm
Join while you study or work.

WEEKENDS

One-on-one help
Doubt clearing, project reviews and interview prep.

EVERY WEEK

One assignment
It goes straight into your portfolio.

WHO IT IS FOR

One program. Three ways to turn it into income or a career.

You learn the same nine modules with AI in every one. What changes is how you use the work you build.

FREELANCER TRACK

Start earning from your own clients

- A live portfolio on your own domain, so a prospect sees real work in one click
- Reusable SOPs and prompt packs for ads, SEO, content and automations
- Practise scoping, pricing and reporting in plain language, so you can say yes to a first client with confidence

Best for: Students, career switchers and side-hustlers who want independent income.

AGENCY TRACK

Join an agency team, or run your own

- A 1-month internship at a partner agency on real client work, with a certificate from the agency
- Learn how agencies actually work: briefs, client reporting, approvals, checklists and account ownership
- Pick up the processes to start a small agency of your own, using AI to do more with a small team

Best for: People who want agency experience, or who dream of running their own agency.

JOB TRACK

Get interview-ready for in-house roles

- A CV rewrite and 3 mock interviews built around marketing roles
- A portfolio plus an internship on your work history, so you show proof, not just a certificate
- Trainers whose work histories and LinkedIn profiles you can check yourself

Best for: Freshers and professionals aiming for jobs at brands, startups and agencies. We do not promise placements; we help you earn the interview.

Not sure which track fits you? Apply, and we will help you choose on your onboarding call.

WHAT YOU WILL BE ABLE TO DO

5 core modules and 4 specialisations, as outcomes

Every module ends with a project that goes into your portfolio, built inside the tools, not on a slide.

1 Build and launch your own website

Tell AI what you want and watch pages take shape on a live WordPress site.

You build: Your live portfolio site

2 Rank on Google and in AI answers

Audit sites, plan content and show up where customers now ask questions.

You build: An SEO audit and a 3-month roadmap

3 Run content that plans itself

Social content, DM and WhatsApp automations without the daily grind.

You build: A 30-day calendar and a working automation

4 Set up ads on 5 platforms

Facebook, Instagram, LinkedIn, Snapchat and X, with a test plan.

You build: Campaign setups on all 5

5 Plan media for a brand launch

Decide where the money goes, and explain why.

You build: A full media plan

Plus 4 specialisations, all included in the fee

AI Generalist
Build your own AI assistant and agents

Marktech
Automate leads, CRM and chatbots

Branding and Content
Content engines that stay on brand

Performance and Growth
Ads, CRO and ecommerce growth

You do not pick one track and miss the rest. All four are part of the same fee.

TOOLS

Work inside the tools companies actually use

Each tool is learned by doing a task in it. You practise on the real thing, so your first job feels like your third.

- WordPress
- Elementor
- Claude
- Gemini
- Perplexity
- Cursor
- Meta Ads
- Google Ads
- Analytics
- Tag Manager
- Looker Studio

While you build your specialisation projects, you work inside these at no extra cost. Nothing else to buy apart from the course fee.

- Claude
- Semrush
- Google AI Pro
- Canva Pro
- Ubersuggest
- SpyFu

Tool names and logos belong to their owners; AIM is not affiliated with them.

COMPARE YOUR OPTIONS

Next to the other routes into marketing

If you want a marketing job, these are the usual paths. Here is how they line up on cost, time and what you can show at the end.

	AIM by Adsmentor	Internships	MBA (tier 2 or 3)	Other digital courses
Fee	**₹5,999 all-inclusive: training, internship and pro tools**	No fee, often unpaid	₹8 L to 15 L	₹70K to 3 L
Time	**3 months: 2 training + 1 internship**	3 to 6 months	12 to 24 months	4 to 12 months
Travel	**None, live online**	May need relocation	Full time, needs relocation	Yes, if offline
AI integration	**AI in every module, hands-on**	Depends on the team	1 to 2 lectures on AI	Basic ChatGPT use
Learning format	**You work inside the platforms**	On the job, little teaching	Lectures and cases	Trainer shows, you watch
Real client work	**1 month inside an agency**	Yes, often with no training first	Summer internship only	Mostly practice projects
You get at the end	**Agency internship certificate + live portfolio**	Internship letter	Degree	Completion certificate
Specialisations	**All 4 included**	N/A	1 elective track	Usually 1 track
Interview prep	**CV rewrite + 3 mock interviews with written feedback**	Low	Medium	Low

MBA and course fees are typical market ranges, not quotes from any one institute.

What a typical course gives you vs what you leave AIM with

A TYPICAL COURSE

- One AI module and a few prompt tricks
- A trainer shows a screen, you imagine the rest
- Practice tasks on made-up brands
- A completion certificate with the academy's name

AT AIM

- **AI used inside every channel**, from WordPress MCP to chatbots
- **Hands-on work** inside the platforms, from week 1
- **Company-style briefs** and real client work
- **An internship certificate** issued by the agency you worked at

WHAT OTHERS CHARGE

The fee comparison, in plain numbers

Programs differ a lot, so compare what you actually pay and what is inside.

Provider	Program in the listing	Listed fee	Compared with AIM

Public listings collected on 3 November 2026 for popular Bangalore-based and online programs. Fees change, and some listings include GST while others exclude it, so confirm each number with the provider. The last column divides the listed fee by AIM's ₹5,999 and rounds. Five questions to ask any institute before you pay

1. **Is AI one chapter or part of every module?**
   The second gets you noticed in your first week at work.
2. **Do you work inside the tools, and how many people share each login?**
   Many programs give no tool access, or one login shared by 10 to 20 learners. Ask for the number.
3. **Is there real client work?**
   Briefs shaped like company needs and a month inside an agency teach you to do the job.
4. **Can you verify the trainers?**
   Open their LinkedIn profiles before you pay and check the roles and dates yourself.
5. **What do you leave with?**
   A live portfolio, campaigns you have run and agency work say more than a certificate that you attended.
